

#### Pyloon,

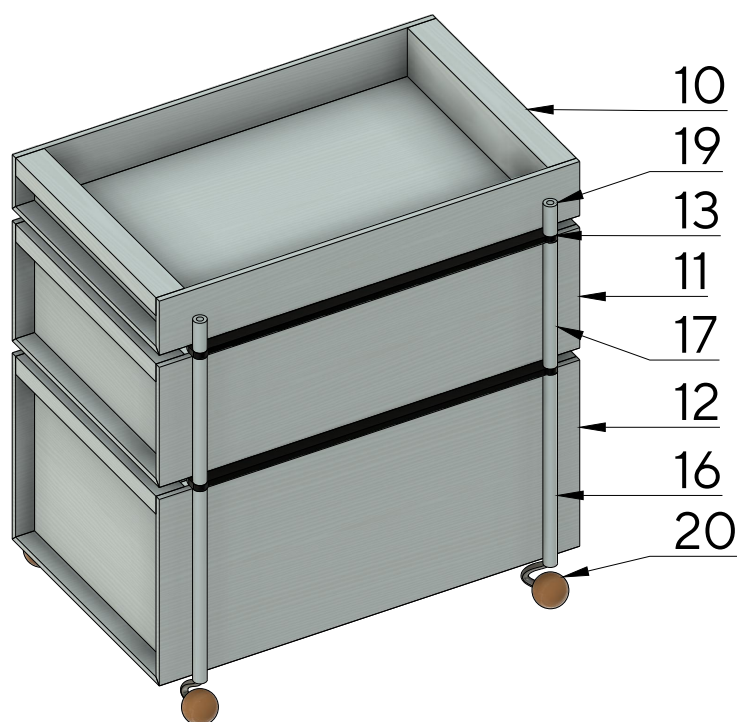

Uniform aluminium tubes, coated in a selected colour, are joined to form a frame. Between these, shelves are placed in three possible lengths. Back and side supports can be slid over the tubes at any level, optimizing stability and functionality. Drawers in three different heights can be placed between the side supports. Made of ash veneer and aluminium tubes finished with a durable p.u. lacquer.

20	1	Trolley wielen	€ 80	€ 80

Totaal exclusief, delivery ,installation and VAT € 1241

Totaal inclusief 21% VAT € 1501

Pyloon trolley.

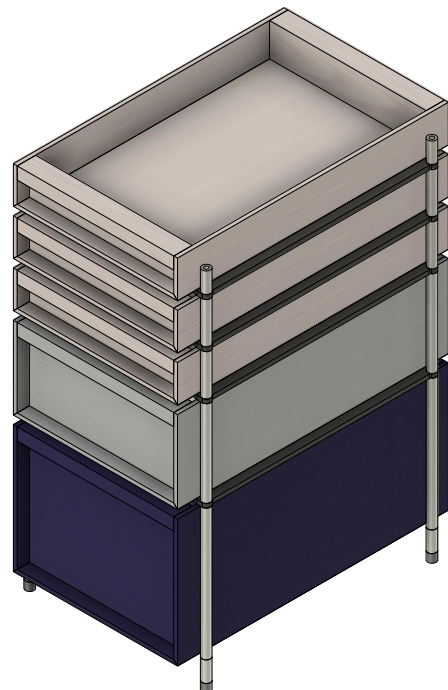

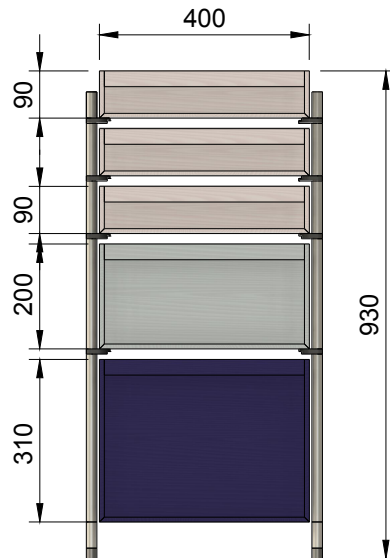

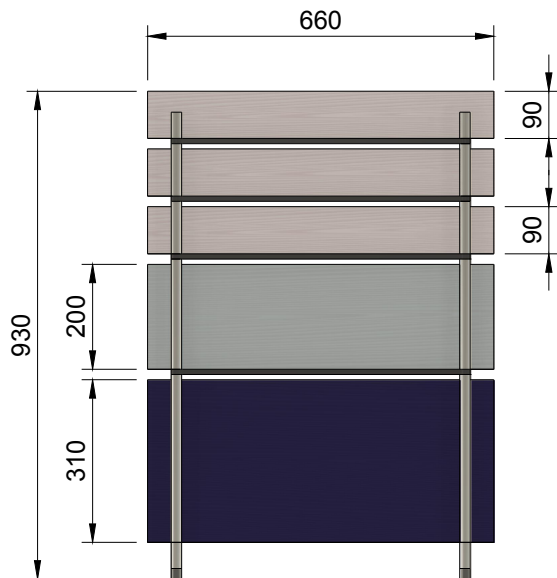

Tube elements from the pylon range are attached to the side of the large bottom drawer. These ensure the stability of the further assembly. Black full-core elements are placed between each tube connection and ensure smooth guiding of the drawers.

The drawers slide on both sides of the trolley and can be removed as needed.

Access to the bottom drawer is gained by sliding the drawer above it.

The unit can be fitted with castors or fixed adjustable feet.

Made of ash veneer, aluminium tubes and volkern slide rails, finished with a colored PU lacquer.
